

HARDSCAPE COLLECTIONS MASTER CATALOG

W H O W E A R E

SINCE 1963

EXCEPTIONAL PEOPLE. HARD WORK. QUALITY PRODUCT.

In 1963 Lee Nash Masonry Products started out in Frankfort, KY as a company between friends, Ray Lee and Tommy Nash. In the early 70's Ray Lee bought Nash's end of the business, which then became LEE Masonry Products in 1975. In the 1990's LEE Masonry Products shifted the name to LEE Brick & Block. From that point on, with the help of Ray's 5 sons, LEE Building Products, Inc. has expanded to what it is today with +25 locations and +400 employees across Indiana, Kentucky and Tennessee.

A HOUCHENS INDUSTRIES COMPANY

In 2006, LEE Building Products™ became a 100% employee-owned company and in 2021 joined Houchens Industries, Inc. This corporation was originally founded in Glasgow, Kentucky by Ervin G. Houchens in 1917 as Houchens Foods. A century later, Houchens Industries is recognized as the largest, most successful and most diversified, 100% wholly owned S Corporation ESOP companies in the country.

Houchens Industries currently owns over 25 companies in the retail, industrial, consumer products, insurance and construction industries. Houchens Industries has been 100% ESOP owned for over 30 years and currently has over 19,000 ESOP participants.

LEE Building Products™ currently manufactures, sells and distributes an array of products for industrial, commercial and residential use. Our products include: concrete and architectural masonry units, pavers, retaining walls, outdoor firepits, natural and manufactured stone. We also offer many brands of clay brick, masonry and hardscape accessories and landscape lighting.

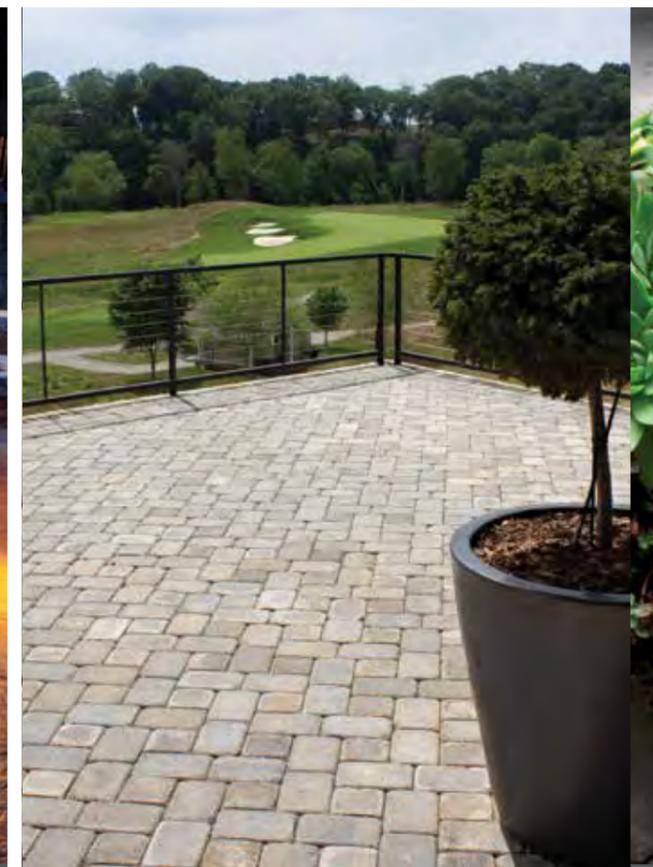

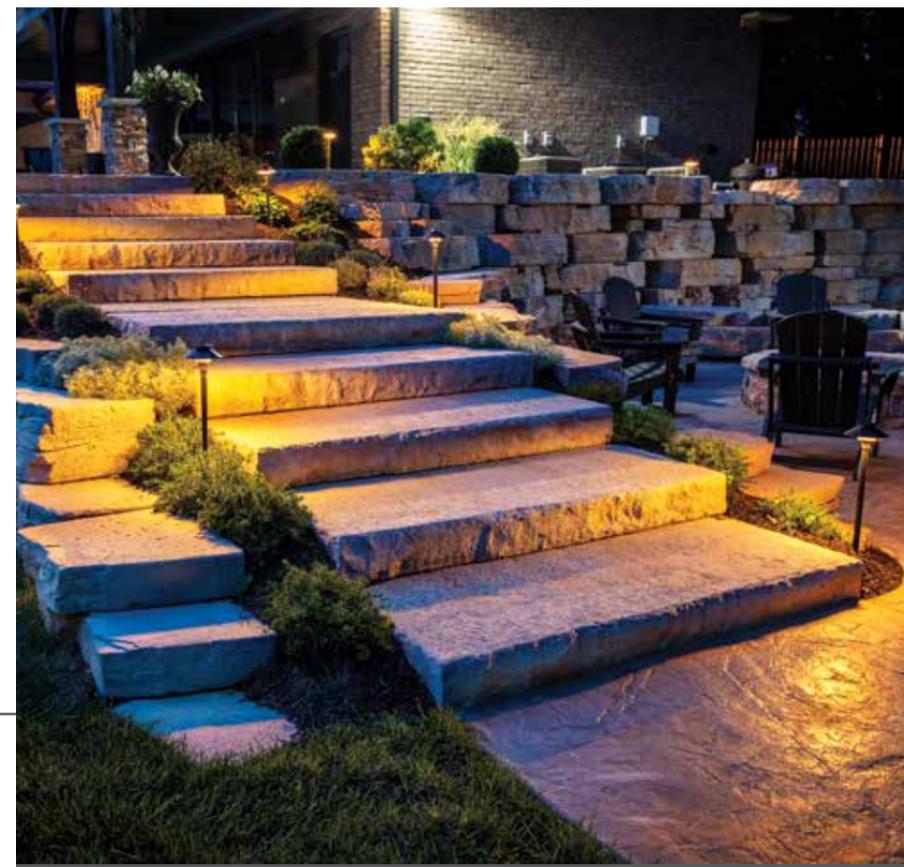

Our brand promise is simple: we strive to provide our customers with superior service and deliver the best quality products available in the marketplace. We meet the needs of our valued customers, vendors and employees by creating trusted relationships built on loyalty, dedication and hard work. By investing in all of our relationships, production facilities and equipment, we have committed to provide the best possible service that meets the industry standards every day.

We at LEE Building Products™ are proud to be employee owned and value our relationships with our customers as well as with our LEE and Houchens families. Our goals are to provide quality products, to uphold industry standards and to create and sustain trusted relationships with our customers for many years to come.

OVER 60 YEARS

Manufacturing, Selling & Distributing:
Clay Brick, Concrete Masonry Units, Hardscapes,
Natural & Manufactured Stone, Accessories & More!

HARDSCAPE COLLECTIONS

Are you planning to create an outdoor oasis or a practical space for residential or commercial areas? We invite you to look through these hardscape collections offered by LEE Building Products™.

We have a wide variety of products that include edgers, pavers, steps, retaining walls, firepits and more! Flip through this catalog to find the best products for your hardscape needs, whether you are a homeowner, contractor, landscaper or commercial builder.

At LEE we have a history with small to large scale projects and are experienced within residential as well as commercial style projects. Our valued and knowledgeable teams are ready to help wherever you are located and whenever you're ready!

12" MOD EDGER

Trim your landscaping with our newest 12" MOD Edger product. Create small retaining walls, planter boxes, tree rings and more with this modern-faced edger. This edger has a contemporary feel with crisp, clean lines, smooth face and chamfered edges. Compact and lightweight for easy installation, with only one unit needed per lineal foot when installed horizontally. Want to spice it up a little? Run these beauties vertically for a slimmer, more unique aesthetic.

NEW PAVERS!

BARN PLANK

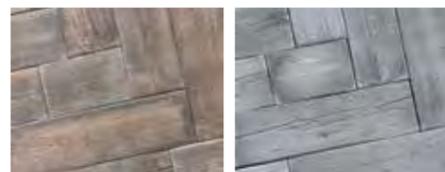

PAVERS & SLABS

BARN PLANK

NEW PAVERS! The Barn Plank collection is a 3-piece, one pallet system that is part of the Silver Creek Collection produced by Rochester Concrete Products. The Silver Creek Collection is modeled and inspired by older, natural materials such as 17th-century Swiss barn wood and antique Italian travertine. The Barn Plank product is 51MM (2") thick, has three sizes, cast with multiple faces and available in two colors. Made with strong wet cast concrete, this product will never warp, splinter or rot! These paver tiles have the look of weathered white pine with soft edges, deep splits and detailed grain on all sides. Suitable for patios, paths, pool decks and overlay applications. Special order only.

COLOR OPTIONS

NEW PAVERS!

BARRINGTON & MINNETONKA

PAVERS & SLABS

BARRINGTON & MINNETONKA

NEW PAVERS! The Barrington and Minnetonka collections are both 3-piece, 60 MM (2.36") thick, one pallet systems produced by Rochester Concrete Products. These products are popular for their price point, aesthetic appeal and ease of installation. The Barrington has a smooth surface and chamfered, straight edges with a small auto spacer. The Minnetonka has a textured, embossed surface with chamfered, irregular edges and a small auto spacer. Both include Chroma Color (facemix coloring), which provides rich and vibrant colors and consistent coloring from batch to batch. Both pavers also are made with Chroma Shield which protects and seals the surface. Suitable for patios, paths and pool decks. See color options below.

NEW PAVERS!

COBBLE STONE, CONTOURS & SILHOUETTE

PAVERS & SLABS

CONTOURS & SILHOUETTE

NEW PAVERS! The Contours and Silhouette collections are manufactured by Rochester Concrete Products and both have a smaller 3-piece format and larger (XL) 3-piece format to choose from (each a 1-pallet system). A unique feature and technique to these paver lines is the angled color veining which mimics natural stone, which is called Whispers™ Technology. All units include Chroma Color (facemix coloring), which provides rich and vibrant colors and consistent coloring from batch to batch. On the surface is also the Chroma Shield feature which protects and seals the surface. Both paver product lines, in small and large format, are suitable for patios, paths and pool decks and are 60MM (2.36") thick. The small formats can also be used for vehicular/driveway applications.

What's the difference between the two styles? The Contours collection has an embossed, textured surface and in contrast, the Silhouette collection has a smoother, sleeker surface. Both have chamfered edges with a small auto spacer.

COBBLE STONE

NEW PAVERS! The Cobble Stone collection is a 60MM (2.36") thick, 4-piece, one pallet system produced by Rochester Concrete Products. This product has an embossed surface and straight edge with a large auto spacer. The Cobble Stone units include Chroma Color (facemix coloring), which provides rich and vibrant colors and consistent coloring from batch to batch. It is also made with Chroma Shield which protects and seals the surface. The Cobble Stone product will give you an old world look and feel while also being eco-friendly with a high-flow-rate permeable feature. Suitable for patios, paths, pools and drives.

GeoCeramica
PAVERS & SLABS

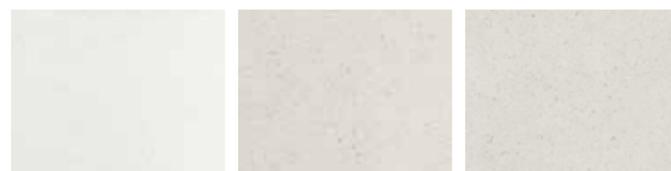

GEOCERAMICA

NEW PAVERS! GeoCeramica combines the classy, contemporary appeal of porcelain tile with a strong base and the ease of installation of a concrete paver. The porcelain top layer is 9MM (.35") with multiple face styles and resistant to slipping, heat, chemicals, staining, fading, and scratching. The concrete base also known as Stabikorn™ is 31MM (1.22") and allows for drainage, expansion and contraction. In total, the GeoCeramica unit is 40MM (1.57") thick. There is also a 4MM (.16") built-in spacer that makes installation more efficient and allows for consistent joint widths throughout the project. The GeoCeramica is best for patios, paths, pool decking and rooftop applications.

Steps palletized in blended pieces. All dimensions are nominal.

3" & 4" NATURA & TUMBLED RETAINING WALLS

Natura 3"x8" and 4"x11" wall products are ideal for small garden walls, planters, flowerbeds and edging applications. The rustic, irregular block face resembles naturally weathered stone and is durable, environmentally friendly, long-lasting and low maintenance. The smaller sizes of 3" x 8" and 4" x 11" make this wall collection easy to lift and install. The tumbled 4"x8"x12" units are available in 3 color blends and can be utilized for retaining or free-standing walls.

4" RESIDENTIAL GARDEN WALLS

Our split face, residential garden wall units are available in 4"x8" and 4"x12". Plan for endless possibilities with your landscaping—from flower beds, tree rings and planter boxes to bigger land retaining purposes. The 4"x8" units are available in a gray/charcoal blend. Housing a new **SUREGRIP® TECHNOLOGY** with smoother, more convenient hand hold areas, the 4"x12" units are made for easier installation. This unit is available in 4 colors: gray/charcoal, red/charcoal, tan, tan/charcoal blends.

6"x16" SOUTHERN TRADITIONS WALL

The split face 6" retaining wall, 3" cap and 6" corner units are perfect for residential or commercial uses. These units are available in many color options (see below). Use the wall blocks for a medium size retaining wall project, add in some corner units then top it off with the cap units and your project is complete!

4" & 6" MOD RETAINING WALL

Enhance your space with our MOD 4" and 6" garden wall products. Create small retaining walls, planter boxes, tree rings and more! To top it off, accent the walls with a coordinating 3" cap. These sleek, cleaner cut wall units have a smooth face with chamfered edges and a rear lip that aids with alignment and product setback. Both 4" and 6" units are lighter, having a reduced weight for easier lifting. The 4" wall unit includes the newest **SUREGRIP® TECHNOLOGY** which provides a smoother grip for hands—no more pinching and easier to transport and install.

BELVEDERE RETAINING WALL SYSTEM & COLUMN CAP

Whether you aspire for an English country garden or a suburban landscape, Belvedere has you covered. The Belvedere wall product has a stone texture on front and back, resembling natural-cut fieldstone. Use Belvedere for walls, columns, steps, water features, freestanding or retaining walls. Top off your column project with the Belvedere column cap which coordinates perfectly with the wall units and gives them that finishing touch.

KODAH RETAINING WALL SYSTEM

When you're looking to make a bold first impression with your landscaping, the Kodah Retaining Wall System is up to the task. The double-sided Kodah wall units can be used as freestanding, retaining, or garden walls and provides an eye catching backdrop for your backyard or small commercial project. The subtle character and modern, clean lines of snapped limestone take center stage while your backyard time with family and friends becomes more visually appealing and a relaxing space to gather.

COLOR OPTIONS

ITEM	DIMENSIONS	PRODUCT	SQFT/UNIT	SQFT/LAYER	LAYERS/PALLET	SQFT/PALLET	QTY/PALLET	PALLET WEIGHT

Coping pallet consists of six layers. Each layer has: Three 12.5"x24", Two 12.5"x18" and One 12.5"x19" End Cap.

*Walls above 4' (from the bottom of footer to top of wall) are required to be approved by an engineer per International Building Code (IBC). Site conditions such as soil, slope and surcharge may affect the need for reinforcement.

STONEGATE RETAINING WALL SYSTEM

The Keystone® Stonegate wall product is a smooth sided stone with a rustic, tumbled look and feel. This wall system allows for easy installation of gravity walls of up to 3' high. Perfect for outdoor living elements such as: columns, steps, tree rings, outdoor kitchens, fireplaces, firepits and benches. Mix and match sizes and colors to make a unique, custom style. The interlocking pin system maximizes design options, improves the installation process and increases the structural quality by allowing a near vertical or setback installation.

WALL & CAP UNITS

GRAND LEDGE RETAINING WALL SYSTEM

The Grand Ledge retaining wall system is a wet cast concrete product that has an appearance of a mega-sized Rosetta Kodah wall product. Calculated setbacks for this snapped limestone looking product makes for easier installation and engineer approval. Available in this wall system are the retaining wall units (24 unique textures), cap and corner units. The winning combination of all units makes Grand Ledge an engineerable wall system with capabilities of 5-6 foot gravity walls with optimal site conditions. Create a clean, crisp lined wall on a long straight run or with subtle curves at your home or business today—this wall will surely have people doing a double take!

OUTCROPPING RETAINING WALL SYSTEM

Do you want to make a HUGE impact on your home or business? Install the Rosetta Outcropping product and you are sure to please while wowing the eye. Outcropping is an engineered, interlocking unit that is made of wet cast concrete, yet looks like natural stone. Consistent dimensions create fast installation and its quality materials equal long term durability. There are a wealth of technical resources such as an installation manual, preliminary height guides, wall layout app, and more. To get started designing and installing Outcropping, contact your local Lee Building Products. See the accompanying charts for pallets A, B and C information.

MAGNUMSTONE
WALLS OVER 8"

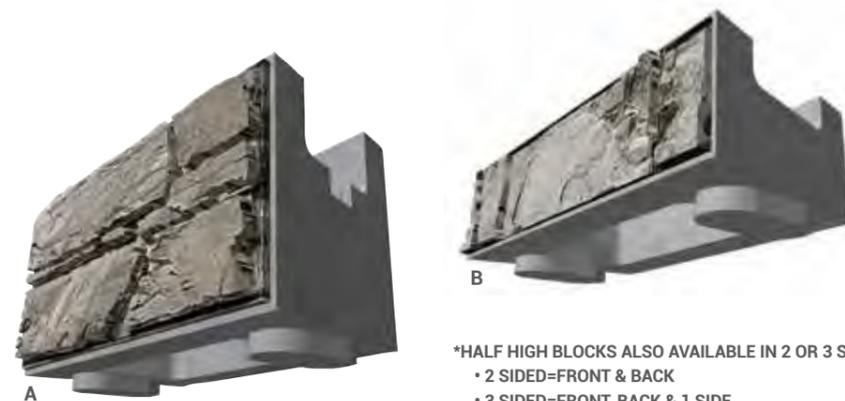

MAGNUMSTONE BIG BLOCK RETAINING WALL SYSTEMS

Using a tongue-and-groove system with its Gravity Retaining Wall Extenders, MagnumStone meets and exceeds the needs of engineers. This big block wall system consists of units that are made from high strength, wet cast concrete. These units provide durability and resistance to weathering and provides a hollow core, making it easier to saw cut. Also available with this system are the 2' and 4' extenders which can be used in any combination of standard lengths. Use on residential or commercial projects—anything from an interstate welcome sign to huge retaining walls for roadways to smaller walls for homes or businesses. MagnumStone big block walls are your answer for it all, plus the engineering behind this system is next to none!
