

WHAT OUR FAMILY IS SAYING...

JOSE ORTEGA

Jose is a retired U.S. Marine with 20 years of service. While completing his last year in college, he came to work for LEE in a temporary position, under the Manufactured Stone division. After completing his college career in Business Administration, Jose

had the opportunity for career growth at LEE in the Manufactured Stone division as a dedicated dispatcher.

Five years later, Jose is now the Logistics Transportation Coordinator and is responsible for coordinating logistics with many different companies. He also develops relationships with major LTL companies and negotiates competitive pricing with all vendors.

KELLIE MYSINGER

Kellie has been with LEE Building Products for almost 25 years. She started as office manager and currently works as a corporate accountant. In addition to those roles, she also provides training and assistance to employees throughout LEE locations.

She is proud to be part of a company that provides quality products and focuses on excellent customer service. What Kellie has enjoyed the most about her time with LEE are the relationships that she has developed with the other people around the company and the satisfaction of seeing how everyone's efforts contribute to LEE's overall success.

PATRICK DENNEY

Patrick started LEE Building Products as an inside counter sales associate. He has always seen great potential for growth at LEE and is proud to see its expansion over his 4 years.

Patrick is a member of the LEE Acceleration Program which

cultivates talent from within the company. This program gives him a platform to share his experiences with other employees from all locations. Patrick is excited for his new role as an outside residential sales associate this year where he will further build his LEE career in years to come.

WHY IS A CAREER AT LEE BUILDING PRODUCTS GOOD FOR YOU?

FAMILY • BENEFITS • ESOP CAREER • GROWTH • VALUE

OUR MISSION:
 WE ARE COMMITTED TO BEING THE FIRST CHOICE OF OUR CUSTOMERS AND EMPLOYEES WHILE ADDING VALUE TO THE COMPANY EVERY DAY AND POSITIVELY IMPACTING THE COMMUNITIES IN WHICH WE SERVE.

THE EMPLOYEE STOCK OWNERSHIP PLAN (ESOP)

In 2006, Lee Building Products implemented an Employee Stock Ownership Plan (ESOP), which was an exciting transition for our traditional, family-owned company. For the first time in the company's history, it meant that every single employee would begin to benefit from the success of the company by becoming shareholders. There is a vesting period for our employees to be fully eligible to receive the benefits of the ESOP.

In 2021, our company growth and success led to a new partnership with Houchens Industries. This has allowed LEE Building Products to join stock benefits alongside 200+ business leaders such as Tampico Beverage, Scotty's Trucking, and IGA Food Markets.

Becoming an ESOP in 2006 and partner in 2021 produced a large shift in the culture of Lee Building Products. The team-building atmosphere it has created has pushed our company to new heights. Investing with hard work and dedication by the employees returns them with a strong retirement. This was and remains a major positive impact for our employees and therefore, our customers. We are excited about the future of Lee Building Products and anticipate even greater success and performance.

BENEFITS

A career with LEE means we take care of you like family. Our benefits include full insurance coverage for Medical, Dental, Vision, and Life. These benefits are available for our full-time employees and are the building blocks of a lasting career at LEE. Through LEE, you will have access to group rates, which are far less than independent coverage.

Disclaimer: Eligibility for benefits starts 90 days after the probation period for full-time employees only.

With LEE we want our team in it for the long haul. We like consistency and dedication and because of this we set our people up for long-term, continued success. After our 90 day probation period employees have access to our full benefits package, which far surpasses any small, hourly wage increases elsewhere. We are proud to offer these unparalleled advantages for working on our team and know that a career with LEE goes a long way in advancing your future.

WHY A CAREER AT LEE?

LEE Building Products has been built on solid values that will last. If you are looking for a career you can grow in and a company you can grow with, then you are looking in the right place. We are more than just building products. We are a family built on the solid foundation of Trust, Honesty, and Hard Work.

From personal growth to professional development and all of the benefits in between, LEE Building Products offers exciting opportunities to our team members. Since 1963 we have been dedicated to our people, which means taking care of them for the long haul. We know the accomplished feeling of a good day's work, and we share that feeling daily at every LEE branch, from the front office to the block yard.

OUR QUALITIES

MANUFACTURING PROCESS

Our team strives for excellence in quality and consistency of products. Our own product development lab and in-house testing facility assures our customers that our products meet or exceed all ASTM and other regulatory testing criteria.

CUSTOMER SERVICE

We pride ourselves in great customer service, striving to reach every customers needs, from residential to commercial, small to large.

COMPLETED PROJECTS

We strive to provide quality products and service that helps our customers meet and exceed their expectations.
